

Technical Data Sheet

Air Spray flammable

Description & characteristics:

Air Spray consists of a non-flammable propellant for cleaning under pressure and can even be applied on highly inflammable spots.

Air Spray is highly suited to clean and dust inaccessible spots, such as joins, gaps and cracks in:

- computer keyboards
- electronic components
- machine parts
- cameras
- glass rims
- clockwork mechanisms
- instruments, etc.

Use:

HOLD THE SPRAY IN AN UPRIGHT POSITION!!!! Do not tilt it more than 30°. Point spraying device at the parts to be cleaned and apply spray with short breaks in-between till there is no more dirt or dust to be seen.
