

## 6 steps to make a Father's Day crown craft using our printable crown template

### You will need:

- 1 x Father's Day crown template (printed on white card or paper)
  - Coloured pens and pencils
  - Blu Glu Stick
  - Scissors
  - Craft embellishments
  - Coloured paper (to create your own shapes and decorations)
  - Paints and paintbrushes
- Optional**
- Glitter Glu pens
  - Foam Pads
  - Extra Strong Glu Dots

1. Print the Father's Day crown template onto white card or paper. You may want to have a couple spare in case of mistakes.
2. Colour in the crown craft template as desired using pens, pencils, paints, Glitter Glu or similar. We also recommend personalising the crown with your father's name or with his favourite colours to make sure it's to his taste.

#### Tacky's tip:

Remember to stay within the lines and to shade carefully so there aren't any white gaps. Use Extra Strong Glu Dots to add craft embellishments such as sequins, gems or similar and use Foam Pads to create 3D effects.

#### Important:

Step 3 includes using scissors. Please ensure children are supervised when using scissors and if necessary, an adult should complete the cutting on behalf of a child.

3. Next, carefully cut out the crown stencil from the template.
4. Apply Blu Glu Stick to both of the 'glue here' tabs on the strips and attach to form a circle. This is the band to go around the head.

#### Tacky's tip:

If you can, measure your dad's head (or someone with a similar sized head) using a flexible tape measure. If necessary, cut your strips so that they are slightly larger than your measurement. For example, if you measured 56cm, cut to 58cm for the perfect fit!

5. Next, glue the crown face onto the circle band using Blu Glu Stick and leave to dry.
6. Now your Father's Day crown is ready to wear. It's time to treat your dad like a king this Father's Day!
